

UNIVERSITÄT  
BAYREUTH

FAMILIE IN DER  
HOCHSCHULE

The University of Bayreuth is a research-oriented university with internationally competitive, interdisciplinary focus areas in research and teaching. The newly founded Faculty of Life Sciences: Food, Nutrition & Health on the University of Bayreuth's satellite campus in Kulmbach is currently seeking to appoint a

# Full Professor of Molecular Exercise Physiology

at pay grade W 3 (minimum salary per month: 7,217 euros) to commence as soon as possible. This is a permanent civil service position.

We invite applications from scholars with excellent research and teaching records. The professorship will conduct internationally competitive research on the molecular mechanisms underlying the positive effects of exercise and training on health and disease caused by physiological adaptation. This should be demonstrated by publications in high-ranking international journals, successful third-party funding, and a clearly recognizable scientific profile.

Active collaboration in the development of the new Faculty of Life Sciences: Food, Nutrition & Health is expected. This also includes the establishment of new scientific and interdisciplinary B.Sc. / M.Sc. programmes such as the master's programme Global Food, Nutrition & Health and the bachelor's programme Food & Health Sciences. We would like to find a university lecturer who, due to his / her research orientation, offers links to the faculty's economic, legal, or social science research groups in the field of public health. Other possible links are the focus area Food & Health Sciences or subject areas from the University of Bayreuth's other departments, in particular Sport Science.

The ability to teach in English is a prerequisite for employment, as significant parts of the teaching programme of the new faculty are offered in English; international applicants must be willing and able to teach in German, at least in the mid-term.

The general administrative requirements for hiring professors at universities in Bavaria apply. A complete description of the vacancy can be found at [www.uni-bayreuth.de/en](http://www.uni-bayreuth.de/en).

Applications (CV, outlining education and academic career, list of publications, list of courses taught, experience obtaining external funding, as well as copies of all diplomas and certificates) are to be submitted electronically to the Dean of the Faculty of Life Sciences: Food, Nutrition & Health, Prof. Dr. Stephan Clemens, via <https://uni-bayreuth.berufungsportal.de> by **28 August 2021**. Applicants are welcome to direct questions and requests for further information to the Dean at [dekanat7@uni-bayreuth.de](mailto:dekanat7@uni-bayreuth.de). Application documents will be permanently disposed of in accordance with data protection law following the conclusion of the appointment process.
