

UNIVERSITÄT
BAYREUTH

FAMILIE IN DER
HOCHSCHULE

The University of Bayreuth is a research-oriented university with internationally competitive, interdisciplinary focus areas in research and teaching. The newly founded Faculty of Life Sciences: Food, Nutrition & Health on the University of Bayreuth's satellite campus in Kulmbach is currently seeking to appoint a

Full Professor of Nutritional Physiology

at pay grade W 3 (minimum salary per month: 7,217 euros) to commence as soon as possible. This is a permanent civil service position.

We invite applications from scholars with an excellent track record in research and teaching. This should be demonstrated by publications in high-ranking international journals, successful third-party funding, and a clearly recognizable scientific profile. The professorship will pursue internationally competitive research aimed at answering important nutritional science questions. In cooperation with the faculty's other research groups (e.g. Food Metabolome, Biochemistry of Nutrition, Bioanalytics, and Food Analytics), it is also intended to contribute to gaining mechanistic insights into the relationships between nutrition and health.

Active collaboration in the development of the Faculty of Life Sciences: Food, Nutrition & Health is expected. This also includes the establishment of new scientific and interdisciplinary B.Sc. / M.Sc. programmes such as the master's programme Food Quality & Safety and the bachelor's programme Food & Health Sciences. We hope to find a university lecturer who, due to his / her research orientation, also offers links to the faculty's economic, legal, or social science research groups in the research fields of food quality and safety or public health. Other possible links are the focus areas Molecular Biosciences and Food & Health Sciences. Secondary membership in the University of Bayreuth's Faculty of Biology, Chemistry & Earth Sciences is possible.

The ability to teach in English is a prerequisite for employment, as significant parts of the teaching programme of the new faculty are offered in English; international applicants must be willing and able to teach in German, at least in the mid-term.

The general administrative requirements for hiring professors at universities in Bavaria apply. A complete description of the vacancy can be found at www.uni-bayreuth.de/en.

Applications (CV, outlining education and academic career, list of publications, list of courses taught, experience obtaining external funding, as well as copies of all diplomas and certificates) are to be submitted electronically to the Dean of the Faculty of Life Sciences: Food, Nutrition & Health, Prof. Dr. Stephan Clemens, via <https://uni-bayreuth.berufungsportal.de> by **28 August 2021**. Applicants are welcome to direct questions and requests for further information to the Dean at dekanat7@uni-bayreuth.de. Application documents will be permanently disposed of in accordance with data protection law following the conclusion of the appointment process.
