

UNIVERSITÄT
BAYREUTH

FAMILIE IN DER
HOCHSCHULE

The University of Bayreuth is a research-oriented university with internationally competitive, interdisciplinary focus areas in research and teaching. The Faculty of Biology, Chemistry & Earth Sciences at the University of Bayreuth is currently seeking to appoint a

Full Professor of Organic Chemistry

at pay grade W 3 to commence on 1 April 2025. This is a permanent civil service position.

We are looking for a scholar with a proven track record in research and teaching, who is active and internationally visible in a current area of Organic Chemistry. The research should focus on the synthesis and application of small molecules and complement the existing research topics of the Organic Chemistry in Bayreuth. The ability and willingness to collaborate with groups from the biosciences is a prerequisite and should be accompanied by links to other relevant research areas, such as Inorganic, Physical, and Macromolecular Chemistry.

A strong publication record, successful acquisition of third-party funding and the ability to collaborate across disciplines, including initiatives to establish new research networks and coordinated programmes, are expected. Strong emphasis is placed on collaboration within the department, within the interdisciplinary focus areas of the University, in particular Molecular Biosciences, Food & Health Sciences, and Polymer & Colloid Science, and in collaborative consortia such as the Collaborative Research Centres "MultiTrans" and "Microplastics".

The successful candidate will represent the field of Organic Chemistry in its full spectrum in all current and planned bachelor's and master's programmes involving Chemistry, the minor subject, the teacher education programmes, and other relevant degree programmes at the University of Bayreuth. He/she will also contribute to their further development, in particular the master's programme Natural Products & Drug Chemistry. The ability to teach in English and German is expected.

The general administrative requirements for hiring professors at universities in Bavaria apply. A complete description of the vacancy can be found at www.uni-bayreuth.de/en.

Applications (CV including a list of publications, presentation of the fields of research including possible links to the existing research infrastructure at the University, teaching concept, list of courses taught, experience obtaining external funding as well as copies of all diplomas and certificates) are to be addressed to the Dean of the Faculty of Biology, Chemistry & Earth Sciences, Prof. Dr. Cyrus Samimi, and submitted via <https://uni-bayreuth.berufungsportal.de> by **15 April 2024**. Applicants are welcome to direct questions and requests for further information to the Dean at dekanat.bcg@uni-bayreuth.de. Application documents will be deleted in accordance with data protection law following the conclusion of the appointment process.
