

UNIVERSITÄT
BAYREUTH

FAMILIE IN DER
HOCHSCHULE

The University of Bayreuth is a research-oriented university with internationally competitive, interdisciplinary focus areas in research and teaching. The Faculty of Biology, Chemistry & Earth Sciences at the University of Bayreuth is currently seeking to appoint a

Full Professor of Physical Chemistry

at pay grade W 3 (minimum salary per month: 7,217 euros) to commence on 1 July 2022. This is a permanent civil service position.

We are looking for a scholar with an international track record in the synthesis and characterization of colloidal materials. In addition to preparative work, the focus will be on aspects of structural and functional characterization, also with regard to applications, especially scattering methods. A willingness and ability to acquire third-party funding, also in coordinated programmes, must be evident.

The successful applicant will be expected to play an active and leading role in the field of physical chemistry and in the Bayreuth Centre for Colloids & Interfaces. Cooperation within the context of the University of Bayreuth's existing interdisciplinary focus areas and research institutes is expected; this especially applies to the focus areas Polymer & Colloid Research and Advanced Materials, as well as the research centres the Bavarian Polymer Institute, Bavarian Centre for Battery Technology, and the Northern Bavarian NMR Centre.

The postholder will represent the subject of physical chemistry in the bachelor's programmes Chemistry, Polymer & Colloid Chemistry, and Biochemistry, in the master's programmes Polymer Science and Materials Chemistry & Catalysis, as well as other relevant degree programmes at the University of Bayreuth across their entire spectrum. The ability to teach in English and German is expected.

The general administrative requirements for hiring professors at universities in Bavaria apply. A complete description of the vacancy can be found at www.uni-bayreuth.de/en.

Applications (CV outlining education and academic career, list of publications, list of courses taught, experience obtaining external funding, as well as copies of all diplomas and certificates) are to be submitted electronically to the Dean of the Faculty of Biology, Chemistry & Earth Sciences, Prof. Dr. Matthias Breuning, via <https://uni-bayreuth.berufungsportal.de> by **28 February 2021**. Applicants are welcome to direct questions and requests for further information to the Dean at dekanat.bcg@uni-bayreuth.de. Application documents will be deleted following the conclusion of the appointment process in accordance with data protection law.
